

PLEASE READ BEFORE PUTTING YOUR MURAL ON YOUR WALL

TATOUAGE TROPICAL BEACH THEME

YOUR MURAL WILL BE APPROX. 7.5 FEET WIDE AND 6.5 FEET TALL
YOU CAN USE THIS GUIDE, BUT THE BENEFIT OF TATOUAGE IS THAT YOU ARE
YOUR OWN DESIGNER!!!

Carefully take all of the pieces out of the bag. Make sure you keep the protective backing on the transfer until you are ready to rub it on your wall. You may tape it to ensure you will not lose the backing.

SAND DUNES: You will have a RIGHT OUTER, RIGHT INNER, LEFT OUTER, AND LEFT INNER. You will also notice that they fit together like a puzzle. Put the DUNES up first. Measure your wall and start the RIGHT INNER and LEFT INNER connection point at the center. Put each of these pieces up. TAKE YOUR TIME. THESE DESIGNS ARE THIN AND CAN TEAR EASILY! When you are finished with these two pieces go to the RIGHT OUTER and LEFT OUTER pieces and these two up.

PALM TREE: There are nine (9) pieces to the tree. These directions will work for the RIGHT and LEFT TREES.

1. Locate where you would want the tree and put the LEFT/RIGHT BASE (Sheet 1) up first.
2. LEFT/RIGHT BASE (Sheet 2) should be placed directly above LEFT BASE (Sheet 1). You will notice they fit together.
3. Sheet #3 will fit into the top of LEFT/RIGHT BASE (Sheet #2)
4. Sheet #4 will fit onto the upper left end of Sheet #3
5. Sheet #5 will fit onto the upper right end of Sheet #3
6. Sheet #6 will fit above Sheet #4
7. Sheet #7 will fit above Sheet #5
8. Sheet #8 will fit on the left side of the tree. HINT: LOOK FOR THE BRANCHES THAT LOOK UNDONE IF YOU ARE HAVING TROUBLE FINDING THE PROPER LOCATION.
9. Sheet #9 will fit on the right side of the tree.
10. Your coconuts can be placed on the tree or at the foot of the tree to give the illusion that they have fallen from the tree.

HIBISCUS: There are tops and bottoms to the Hibiscus Bush. Always put the bottom sheet up first, then line up the top. The fit should be so that you cannot see a line between the two pieces.

SEASHELLS: Use the Seashells around your mural to accent, or if there are any mistakes that you have made on your Sand Dunes, use the Seashells to disguise them.
